

COMPANY PROFILE · 2026

Ceylon Prime Construction

CEYLON PRIME
CONSTRUCTIONS

Design, construction and interior fit-out for businesses and homes across Sri Lanka.

We turn your idea into a finished space.

Ceylon Prime Construction is a Sri Lankan company that designs, builds and fits out spaces. We work on cafés, restaurants, shops, showrooms, offices, clinics, gyms, hotels, villas and homes.

We keep it simple. First we understand what you need. Then we show you the space in 3D. Then our own engineers, site team and workshop build it properly.

KONGCEPTS IT OFFICE, KANDY

Design

Site study, layouts and photoreal 3D

Build

Structure, finishes, façades and services

Fit-out

Joinery, furniture, lighting and signage

Four companies, one team.

Building, interiors, home design and engineering work together. You talk to one group, and it handles everything.

Ceylon Prime Construction

CONSTRUCTION & PROJECT DELIVERY

Builds and runs every project on site.

Ceylon Interiors

INTERIOR DESIGN & FIT-OUT

Designs and finishes the inside: layout, ceilings, lights and furniture.

Ceylon Dream Spaces

RESIDENTIAL & LIFESTYLE SPACES

Ideas and designs for homes and villas.

Vishkam Engineers

ENGINEERING SUPPORT

Checks the structure and gives technical advice.

What we stand for.

Vision

To be the construction company Sri Lankans trust most for quality and honesty.

Mission

To plan well, price clearly, build carefully and design spaces that work.

Promise

We take care of every project, from the first visit to the day we hand over the keys.

We don’t just build buildings. We build places people love to be in.

Spaces for business and home.

Cafés & restaurants

Retail & showrooms

Offices

Clinics, salons & gyms

Hotels, villas & homes

Façades

Also: hotel renovation · apartment fit-outs · walk-in closets · home theatres · smart homes · custom furniture and joinery · 3D design proposals

The people behind the work.

Civil engineers
Structural safety, technical accuracy and site supervision.

Quantity surveyors
Bills of quantities, budgets and cost control.

Draftsmen & designers
3D visuals, technical drawings and construction details.

Project managers
Programmes, suppliers, site teams and client updates.

Site teams & craftsmen
Masons, steel fixers, carpenters, electricians and finishers.

One project coordinator
Your single point of contact from site visit to handover.

Five clear steps, start to finish.

01

Site visit & brief
We measure, listen and agree what the space has to do.

02

Concept & 3D design
Layouts and photoreal views, decided on screen.

03

Technical drawings
Architectural, structural, electrical and plumbing.

04

BOQ & budget
An itemised bill of quantities before work starts.

05

Build & handover
Construction, fit-out and joinery, then a walk-through.

Selected work.

01

Fika Deli

CAFÉ & DELI INTERIOR

A warm, daylight-filled café with sculpted textured walls, arched display niches, a timber-beamed ceiling and a hand-crafted green scale feature wall.

02

The Core 2.0 Gym

GYM INTERIOR DESIGN, CONSTRUCTION & FIT-OUT · DEHIWALA – MOUNT LAVINIA

A high-energy gym interior: black surfaces, linear LED ceiling lines, oversized ceiling lettering, a painted feature mural and a sprint track floor.

03

Novo Café

CAFÉ DESIGN & BUILD · MORATUWA

From 3D design to the steel frame to opening night: a glass-fronted café with a timber ceiling, teal counter and an illuminated NOVO sign.

04

Kongcepts IT Office

IT OFFICE INTERIOR · KANDY

A creative IT workspace with bold graphic walls, timber workbenches, a gaming lounge and branded reception.

05

A&M Cupcakes Kiosk

MALL KIOSK DESIGN & BUILD · COLOMBO CITY CENTRE MALL

A blush-pink fluted kiosk with gold detailing, taken from 3D design through installation inside the mall to a finished, lit counter.

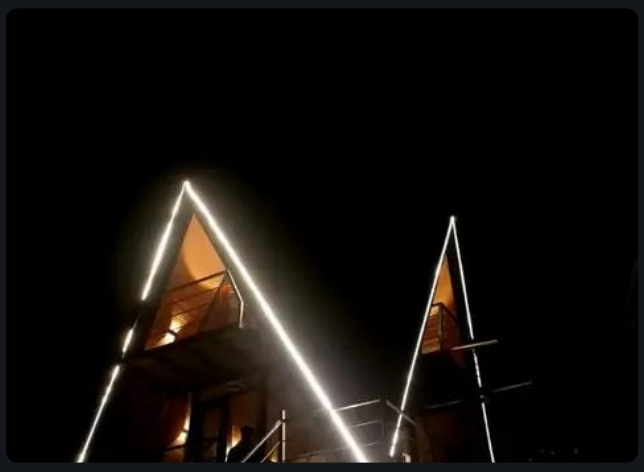

06

New Radha Tex

SHOP FAÇADE RENOVATION

A tired multi-storey shop front transformed into a bright red, glass-fronted façade with illuminated signage, shown from before, through scaffolding, to finished.

07

Jetzo Cabana

A-FRAME CABANA BUILD

A-frame steel cabanas raised from bare frame to warm timber interiors, with outline lighting that makes them glow at night.

08

Mirihana Residence

RESIDENCE · MIRIHANA

A calm, light-filled home: double-height living, timber ceilings and screens, and an internal water court.

Why clients choose us.

01
Design and build under one roof
One team from the first drawing to the last light fitting.

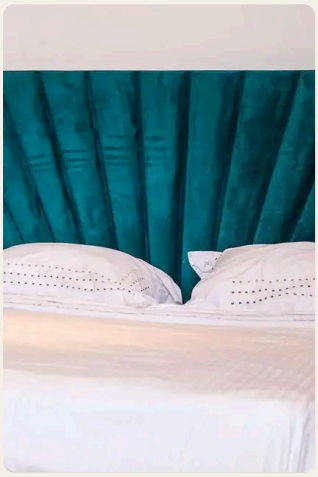

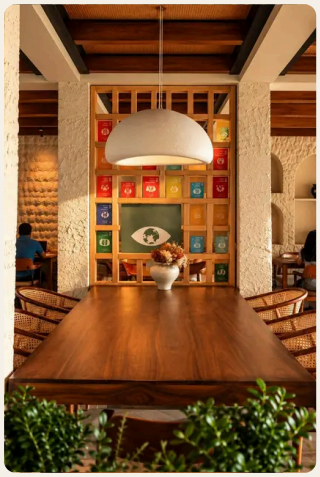

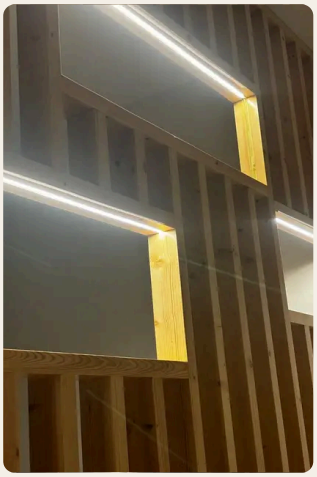

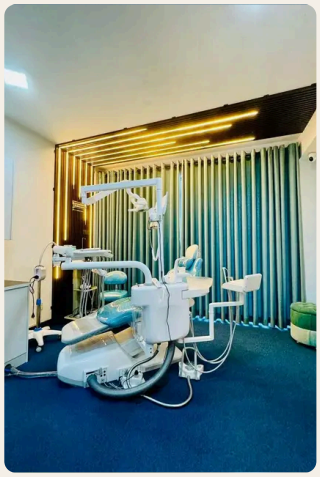

02
You see it before we build it
Photoreal 3D design means fewer surprises and faster decisions.

03
Clear numbers
An itemised BOQ and budget before work begins.

04
Engineering behind the finish
Engineers and quantity surveyors check what goes behind the walls.

05
Our own workshop
Counters, joinery and furniture made to measure and fitted by us.

06
One point of contact
A dedicated project coordinator keeps you updated throughout.

08 CONTACT

Let’s build together.
